

## **Status update: KESC Pool Grounds Project**

As of 4/13/22, per CH Township officials, because the pool cover was compromised,

- CH Twp. removed the cover, pumped down the pool & installed temporary construction fencing around the perimeter of the pool
- CH Twp. posted 'Do Not Enter' signs
- CH Twp. will inspect the perimeter fencing periodically to verify the site is secure.

Additionally,

- The Municipal Engineer is currently completing the plan design & specification for the pool demolition & soil remediation
- CH Twp. will reach out to GKCA once they choose a vendor for this work & provide detailed information as well as a contact person specific to this phase of the project.
